UI Engineer Coding Exercise

To complete this test, we are expecting you to accurately make this responsive design.

The page consists of 9 numbered cards which can be manipulated by using the shuffle and short buttons.

Using JavaScript, allow the user to:

- Click the shuffle button to randomly rearrange the order of the cards
- Click the sort button to place the cards in ascending order (1 – 9)

Take no more than 60-90 minutes for this test. Please try this without using any frameworks or libraries. Your code will be tested in Chrome.

Colours used in this design:

#000000	#2B8EAD
#333333	#6F98A8
#FFFFFF	#BFBFBF
#EFEFEF	#2F454E
#72C3DC
